Re: Response of Tenaris Coiled Tubes, LLC to General Notice Letter for the CES
Environmental Services, Inc. – Houston Superfund Site in Houston, Harris
County, Texas

Dear Mr. Werner:

By General Notice Letter dated February 27, 2015, the U.S. Environmental Protection Agency ("EPA") notified our client Tenaris Coiled Tubes, LLC ("TCT") of potential liability with respect to the CES Environmental Services, Inc. – Houston Superfund Site in Houston, Harris County, Texas (the "CES Site") and invited TCT to join in settlement negotiations with EPA regarding the CES Site. By this letter, TCT confirms its intent to enter into settlement negotiations with EPA concerning this matter. In indicating its intent to participate in settlement discussions, TCT does not admit any liability or responsibility for the CES Site.

We also would like to bring to your attention that Enclosure 2 to the General Notice Letter contained some documents that do not appear to be relevant to TCT or its predecessor in interest by merger, Precision Tube. Specifically, two of the bills of lading provided with the enclosure (Bills of Lading Nos. 71687 and 71686) list Targa Midstream Services LP as the shipper.

Please contact me at 512.322.2616 if you have any questions regarding this submittal.

Sincerely,

Aileen M. Hooks
